PROFESSIONAL SUMMARY

Software Engineer with 5+ years of experience building and maintaining full-stack web applications using PHP, MySQL, and JavaScript. Delivered a customs clearance and cargo system (TPS Online for Garuda Indonesia Cargo) integrated with Indonesia Customs and Excise CEISA 4.0. Experienced in RESTful API design, SQL query optimization (cut one critical query from 50 seconds to 1 second), and Agile/Scrum teamwork.

TECHNICAL SKILLS

Backend: PHP, RESTful APIs, Microservices Architecture, OOP
Frontend: JavaScript, HTML, CSS, Bootstrap, jQuery EasyUI, AdminLTE
Database: MySQL (query optimization, schema design)
Integration: Third-party API integration (CEISA 4.0), JSON, REST
Tools and Practices: Postman (API testing), staging and production deployment
Concepts: Data Structures and Algorithms, Agile/Scrum

PROFESSIONAL EXPERIENCE

Software Engineer | PT Gudang Jago Sejahtera, Jakarta **Apr 2021 - Present**

- Built and maintained **10+ RESTful APIs** with PHP and MySQL powering core backend operations of the TPS Online and cargo/customs clearance system for Garuda Indonesia Cargo, processing about **1,500 transactions per day**.
- Developed the export and import modules, the reporting module, and several mitigation plan modules, covering both backend logic and web interfaces.
- Integrated the system with Customs and Excise **CEISA 4.0** APIs, reaching a **90% transaction success rate**; traced the remaining failures to CEISA 4.0 not yet covering all business processes.
- Optimized a slow SQL query and refactored legacy code, cutting execution time from **50 seconds to 1 second** (about 98% faster) through indexing, join rewrites, and minimizing function calls inside queries.
- Built web interfaces with JavaScript, Bootstrap, jQuery EasyUI, and AdminLTE for warehouse operators, PPJK (customs broker) staff, and customs officers.
- Released changes across staging and production environments, and worked with cross-functional teams in Agile/Scrum (daily stand-ups, two-week sprints).

EDUCATION

Budi Luhur University, South Jakarta **Aug 2016 - Feb 2021**
Bachelor of Information Systems (S1), GPA 3.50/4.00

CERTIFICATIONS

- TOEFL Prediction Test, TOEFL.ID | Jan 2026 | Score: 483
- UI/UX Development, Google | 2024 - 2025
- ERP and Business Analytics, Monsoon Academy | 2018 - 2019
- Computer Algorithm Competency (passed assessment), Budi Luhur University | 2018
